

Adult Registration Costs: Nota Bene!

In an attempt to make the registration charges for adults clearer, I have inadvertently confused some of you. *mea culpa!* Here is the definitive explanation – I hope!

1. There must be **1 adult for every 12 students**. If you are bringing 13 -24 students, then you have two adults coming for free in order to satisfy the 1:12 ratio. If you are bringing 25 students, you are entitled to 3 adults for free.
2. BUT, if you are bringing, say, 9 students and 2 adults, you must pay \$40 for one adult or, if you are bringing 9 students and 5 adults, then you must pay \$40 for four adults.
3. None of this applies to SCLers (college helpers) who are free – **unless they are coming as chaperones from your school**. Then they fall under the same category as any other chaperone.
4. The 1:4 ratio should not have been in the Blue Booklet or the Cover Letter.

Hope this helps in your planning.
